IRC ! ?
可以吃嗎 ?

```
13:41 @ Jedi_ | ychsiao: work wih mIRC <= 6.2 @@"
13:42 @ Jedi_ | 所以 6.21 就掰了 KD
13:42 @ ychsiao | Jedi_: 我剛剛裝最新版6.3.1耶...一樣可以啊
13:42 @ Jedi_ | 6.3.1!
13:42 @ Jedi_ | 這麼嗨
13:52 @thinkeryz | 請問一下, 如何在 ports 裡面, 自動清除 egginfo ?
13:54 @thinkeryz | 我看了一下 bsd.python.mk 裡面, 好像會自動加進 PLIST_FILES, 但實際上卻沒有..
14:05 @thinkeryz | 找到問題了.. 是 porttools 的問題...
14:05 @ cclien | "
14:05 @ cclien | 分紅費用化72%科技人想轉行"
14:05 @ Jedi_ | 轉行!
14:05 | cclien | 還沒入行大家都要轉行了哭哭
14:05 @ Jedi_ | 拿到錢就要閃了這樣?
14:06 @ Jedi_ | # 之前都被配股綁死死?
14:06 @thinkeryz | 72?? 有這麼多科技人都有分紅嗎?
14:06 @ cclien | 看來真的要去開機車行了
14:06 @thinkeryz | 哪一家的新聞? 104?
14:07 @thinkeryz | 或是, 沒領到分紅的不算科技人?

14:20 @ rafan | jeffhung: patch portmaster 吧
14:20 @ rafan | oops, portconf
14:21 @ llwang | 看來好像還是需要有人跑個 script 偵測是不是有人講了非 utf-8 話, 不然大家用 irssi 自動轉碼都不知道到底講的話對不對
14:35 @ cclien | 就靠sd_bot了
14:37 @ llwang | sd_bot 自己不是講 big5 的嗎
14:39 @ cclien | 所以可以跟 sd_bot 講話就是設錯了

Welcome to #macintosh | No warez/profanity/personal attacks/hurricanes/general lameness | MBP Battery Problems - http

14:42 chino-: I mean the url..

14:42 chino-: <http://www.arctic.noaa.gov/latest/noaa3.jpg>

14:43 chino-: I made a typo with the original and spelt it artic

14:43 G-wiz-: i'm almost convinced that if i fill out a long form that i should either copy all my entered text and paste into a text editor (just in case) ... cause sometimes the form script explodes or the page tells me that i took too long and have to relogin or something

14:43 edam: I c/p'd it: <http://www.arctic.noaa.gov/latest/> along with that .jpg part, too. I got the 403 last, before that, I got a google page with a "link not found." type of thing.

14:43 Zaren: g-wiz: it was over 20 separate pages

14:44 Zaren: luckily, I had sense enough to save the relevant data

14:44 edam: it's probably because I'm all firewalled and stuff like that. Makes my internet eyes look all threatening or something. Little do they know, I'm just a curious idiot.

14:44 Zaren: because I KNOW I'm going to need it when I do this all over again on the phone

14:45 edam: chino: maybe you can submit it to boingboing so I can see a screencap.

14:45 chino-: edam, hang on

14:45 MacCanada: oohhh someone seems to have tin-hat ideologies *tee hee*

14:46 chino-: <http://roadtrip.chino.com/pics/noaa3.jpg>

14:46 edam: don't knock the tin-hat until you've tried it, man! (ramble incoherantly about frequencies and gobbletygook)

14:47 chino-: edam... did you get it?

14:48 chino-: not much to look at.. buit still.. it's the northpole

14:48 edam: chino: it's takin' forever to load. still connecting. I timed out on firefox..it's that updated one.

14:48 edam: I'm gonna try safari
