Homework #0

- Connect to a FreeBSD/Linux workstation, and use `vimtutor` to get familiar with `vim`
  - `vimtutor`
- After learning `vim`, learn basic Unix commands through the following webpage:
  - https://it.cs.nycu.edu.tw/unix-basic-commands
  - Be sure that you at least know the basic usage of the following commands before the next lecture:
    `man, pwd, ls, cd, cp, mkdir, rm, rmdir, ssh, scp, telnet, cat, less`
